

For over 20 years, Datashred Security has been Ottawa's leader in secure document destruction, records management and offsite storage for public and private sector businesses and organizations.

Secure Shredding & Document Destruction Services

Datashred specializes in secure, cost effective and compliant mobile and on-site document shredding and data destruction. As a trusted outsourced shredding partner, Datashred ensures:

- All confidential and sensitive information is destroyed properly and completely
- Businesses and organizations are compliant to privacy laws and regulations
- Use of "pierce and tear" technology that results in a cross cut that is compliant up to Secret security clearance and endorsed by the RCMP

Confidential Document Destruction

Datashred offers a variety of services to meet clients' needs:

-  On-Site Shredding Service (Purge)
-  Hard Drive and Media Destruction
-  Scheduled Service

Secure Off-Site Records Management

Datastore offers a secure, specialized facility to store your sensitive and important documentation combined with a web portal customized to your needs that allows you to review, and manage your information. We are also an approved Controlled Goods Program Facility.

Off-site record storage is the most efficient, cost effective, and secure way to protect your intellectual assets and records.

-  Box Storage Management
-  Document Destruction
-  Customized Solutions
-  Storage Boxes
-  File Indexing
