To: Mr. Kris Marentette, Project Manager  
Golder Associates Ltd.

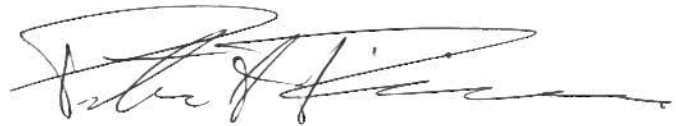

RE: **Stage 1 Archaeological Assessment, Proposed Quarry, Lots 14 and 15, Goulbourn Township, Regional Municipality of Ottawa-Carleton**

I have reviewed a Stage 1 assessment report, submitted by Heritage Quest Inc., for the above-mentioned proposed quarry (License # 99-027; CIF # 99-027-016). The consultant provides a thorough description of the land-use history and archaeological potential of the subject property and concludes that no further archaeological work is necessary within the study area.

The Ministry concurs with this conclusion. As such, this letter should confirm that archaeological concerns have been addressed for the proposed pit application.

I trust that this information is of assistance. Should you wish to discuss this further, please do not hesitate to contact me.

Sincerely,

Peter A. Timmins  
Heritage Planner
